

# **Dubbo RSL Memorial Club**

## **Environmental Sustainability Policy**

### **Background**

Dubbo RSL Memorial Club has a role and obligation in protecting the environment, minimizing adverse environmental impacts, remediating environmental problems, reducing resource consumption and enhancing the sustainability of Dubbo RSL Memorial Club. The Dubbo RSL Memorial Club requires all management, staff, members and guests to have regard to the principles of Environmental Sustainability.

### **2. Purpose**

This policy demonstrates Dubbo RSL Memorial Club's commitment to sustainability and sound environmental management. It also highlights how the principles of Environmental Sustainability (ES) should be integrated into all of Dubbo RSL Memorial Club planning, operations, activities and service delivery and advocated to the Dubbo Community.

### **3. Purpose**

Dubbo RSL Memorial Club is committed to:

- Protecting and conserving the environment, including natural resources, ecological processes and biological processes and biological diversity;
- Reducing the ecological footprint of the Dubbo RSL Memorial Club as a whole, through the encouragement of avoidance of wastes, sustainable use of resources and uptake of social responsibility and sustainable lifestyle practices;
- Preventing and minimizing human impacts on the environment by incorporating the principles of Environmental Sustainability (ES) into planning, policy and procedures; and
- Excellence in environmental management, sustainability and corporate social responsibility, utilizing current Best Practices where possible and applying expertise within Dubbo RSL Memorial Club to contribute to managing environmental issues where applicable.
